# OUR MISSION

Since its creation, Powershot® has been committed on a relentless journey of innovation and revolution in sports products.

Founded with the vision of solving the challenges faced by sports clubs and passionate players, the brand is committed to pushing the boundaries of the sports market, constantly exploring new and creative solutions.

The innovations proposed by our teams are based on real feedback from customers, coaches and clubs. Never satisfied with what already exists, Powershot® is always striving to push the limits.

Committed to be more respectful of the environment with its processes, Powershot® supports local production whenever possible.

For several years now, our entire range of PVC goals has been manufactured directly in Germany. The majority of the materials used in our aluminium football cages is also manufactured and assembled close to our premises in Germany.

Established in 2022, the OKO® fitness range is developed entirely from recycled materials.

# NO HAND TECHNOLOGIE ©®

by POWERSHOT

Discover the No Hand Technology ©® revolution!

This innovative technology enables you to practice the right moves that are not reprehensible for defenders.

In the penalty area, the defender grabs the No Hand Technologie® strips preventing him from committing any hand fouls.

According to the French "Institut National du Sport de Expertise et de la Performance" (INSEP), the automation of movements in a match without using the conscious mind comes from the repetition of those movements in training.

# NO HAND

Trademark and patent pending  
All rights reserved

Working with the No Hand in game situations allows the player to develop the right reflexes for matches!  
Recommended by educators and referees.

Discover No Hand Technologie shorts.  
Available for men, women and children in a wide range of sizes.

The removable No Hand Strips are one size fits all and fully adjustable to each player to wear over your shorts!
